Accordingly, the CEO shall ensure the following: -

i. All the registered family members are kept in the same section and at the same place and ensure no family is split up.

ii. Proper formation and reorganization of sections and parts reflecting correct house numbers, whenever required.

iii. Polling stations are located on ground floor/ road entry level.

vii. Good quality of correct images as per ECI standards.

b. Before the draft publication, exercise of removal of all logical errors and standardization of addresses and checking quality of photographs as well as removal of discrepancies in EPICs shall be completed in a time bound manner.

c. **House to House (H2H) Field Verification: -**

i. For field verification, the BLOs will be given a pre-filled BLO register (Statement-1) containing the details of existing electors in their respective part for H2H field visit. The household is the basic unit for conducting the house-to-house survey and to get the said details verified/corrected from the electors or the head of the household as mentioned in the Statement-1. In addition to that, BLOs will collect the following information –

a) Multiple entries/dead electors/Permanently Shifted Electors in Statement 1

b) Correction in the ER entries in Statement 1.

c) Un-enrolled eligible citizens in Statement 2.

d) Prospective electors (eligible on 01.01.2026 and subsequent qualifying dates) in Statement 3.

ii. BLOs will get the requisite Form 6,7,8 filled from the citizen/elector.

iii. On completion of field verification, each BLO and each ERO shall furnish the certificate to the Chief Electoral Officer through DEO concerned, to the effect that details in respect of all the above items have been collected 100% without any left over.

iv. BLO shall carry at least 30 blank Form 6, for enrolment of new electors and 20 blank Form 7 and 8, for deletion/correction/transfer of any existing entry.

v. If BLO finds that any house is locked or closed at the time of visit, she/he shall at least make three visits to get the verification done.

d. D-Voters: The details of D-Voters shall not be included in Statement-I, as no verification is required in their case. All related particulars (such as name, age, photograph, etc.) of D-Voters shall be carried forward to the draft electoral roll without any change. Any modification, including removal or deletion, shall be made only upon receipt of an order from the competent Foreigners' Tribunal or an appropriate court of law.

**5. Rationalization of polling stations- Reserialization and Formation of sections**

a. Based on the H2H enumeration, ERO shall assess the need of new Polling Stations considering that no **Polling station has more than 1,200 electors, except with the prior approval of the Commission**. ERO to also ensure that the polling station area is so defined and demarcated that no overlap exists with any other Polling station.

b. The electors are not required to travel for more than two kilometers distance and to cross any natural barriers.

c. Extensive survey must be carried out during the exercise of rationalization of polling stations for setting up new polling stations in the High Rise/Group Housing societies/RWA colonies that have common facilitation area/community halls at ground floor within the premises and in slum dwelling clusters of urban areas.

d. Immediately after assessing the requirement of new polling stations, ERO shall communicate the requirement of additional polling stations to DEO.

e. DEO, being responsible for provisioning of polling stations u/s 25 of the RP Act 1951, shall ensure 100% physical verification of the existing and newly proposed polling station locations through a senior officer to assess as to

whether the building is in proper condition and it meets the other parameters set by the Commission for smooth conduct of poll.

f. DEO shall consult the representatives of the political parties before finalizing the proposal of new polling stations. Thereafter, DEO shall obtain the approval of the Commission for the consolidated proposal of polling stations, through CEO.

g. Proposal for change of location shall be sent to the Commission only after 100% verification/inspection of the polling station and along with longitude and latitude. Latitude and Longitude of all Polling Stations, newly identified and proposed for creation/change of location of polling station shall be captured and details of the same shall be updated in the ECINet Dashboard.

h. After Commission's approval, ERO shall update the Control Table in ECINet and create Parts, as per IT applications to prepare draft Electoral Roll.

i. Once a new polling station is created in the Electoral Roll, ERO shall also, through BLO, ensure uploading of photos and location information of the polling station, along with data like latitude and longitude of the Polling Station, from BLO's module in ECINet App.

j. **Standardization of addresses:** The electors will be arranged in the roll in a sequence, according to the House no. (and Floor no. of the building). To standardize the address of electors the following fields of addresses shall be maintained while preparing the roll:

i. House No./ Flat No./Door No. (Name of house, if available)
ii. Floor No. (in case of multi-story building)

vi. Ward No*
vii. Street/ Road/Lane*
viii. Sector
ix. Area/Locality*
x. Landmark, if any
xi. Village/Town/City*
xii. Sub-district/Tehsil
xiii. District*
xiv. State*
xv. Pin code*

k. **Notional House Number-**

i. In BLO App/ECINet App, provision will be made for BLOs to enter the allotted House Number or Notional House Number. During House-to-House verification, BLOs shall record the correct house/building/flat number as given by the Panchayat/Municipal Authorities against entry of each elector residing in the same house.

ii. In case, no separate house/building number is given by the Panchayat/Municipal Authorities, the BLO will give a distinct non-zero notional number to each separate house/building/structure in which elector(s) resides. However, BLO shall ensure that all electors from a household residing in one house are given same notional house number.

iii. In such cases, BLO shall attach "N" with the notional house number to begin with 'N1', 'N2' "....." and so on for each polling station. Allotment of Notional House number will have no impact on the legal status of the property. The purpose of allotting a Notional House number is just to keep electors of one household in one polling station during rationalization of polling stations. In addition to allotment of Notional House Number, BLO shall also mention the nearby landmark so that House can be distinctly identified upon inquiry.

l. **Family Grouping:**

i. Based on the H2H enumeration, while creating a new polling station or re-organizing/rationalization of the existing polling stations by creating/merging/ attaching sections to the adjacent polling stations, ERO to ensure the following:

a) No family residing at same Door/Flat No. is split up and all the family members are kept in the same section and in the same part,

The software-based reports shall be generated for the 'black and white images', 'not to specification images', 'non-human images' and 'no image' entries. For replacement of such images, BLO field verification through BLOs should be done and necessary applications i.e. Form-8 along with photograph as per specification shall invariably be collected from the electors and proper track record of such replacement be kept.

8. **Preparation of formats 1 to 8 - Identification of the Gaps and finalizing the strategy and timeline**

a. Before draft publication of electoral roll, the CEO shall ensure that all activities of pre-revision exercises as mentioned in schedule have been completed. Format 1-8 for statistical analysis of the health of the electoral rolls must be prepared before the draft publication and also at the end of the Special revision before final publication. These formats should be prepared part wise by the EROs. The DEO must examine the part wise format 1 to 8 to understand the implication of the health of electoral rolls. The DEO shall compile Format 1 to 8 and send it to CEO who in turn makes the analysis AC wise.

b. CEO/DEOs/EROs shall do statistical analysis of data of Format 1-8 in respect of the last finally published electoral rolls with reference to 01.01.2025 as the qualifying date along with its supplements in order to find out any major gaps in terms of E/P ratio, gender ratio, age-cohort imbalances, particularly of 18-19 age group, abnormal increase or decrease in number of electors in area, <100% PER/EPIC in ACs/PSs. No need to emphasize that the analysis should be done with due care and promptitude. For a better analysis, previous years' data should also be taken into consideration for better appreciation of the scenario by comparing this data using charts etc. If analysis is done at micro level i.e. polling station level, the gaps may clearly manifest which are not visible at macro level i.e. State/District or AC level. Since Census data of 2011

including age wise population details are published by Registrar General of India (RGI), the population projection for 2026 should be done accordingly.

c. The above said analysis of data should be done by the EROs and AEROs who after discussions with BLOs and Supervisors should give analytical note to DEO concerned, who shall then discuss with EROs and AEROs of all ACs under his jurisdiction. After critical gaps are determined, check, if any cogent and logical reasons like migration due to socio economic or natural calamities etc. and/or cropping up of new colonies/habitats are there to answer the gaps. If so, mention it in the note. The DEOs shall forward a composite analytical note to CEO along with strategies to address the issues. Finally, the CEO, having reviewed and analyzed district wise reports, shall prepare State analytical note and chalk out necessary strategies to address the gaps that need to be filled up. The gaps should be described in quantitative terms.

d. The CEO shall forward these formats in respect of final electoral roll with reference to 01.01.2026 as the qualifying date along with his/her comments and identified gaps, strategy, time line to bridge the gaps and description about the targets achieved during the course of Special Revision to the Commission.
