Date: 16.9.2026

PRESS NOTE

Pattern is related to Urbanization and Migration and not to any religious composition:

A report regarding uncollectable electors is published in Indian Express on 9th Sept. 2026 with title "SIR: 3 in 10 voters not carried forward in Muslim – heavy seats in Maharashtra." Based on said report, a post with title "Why shouldn't the Election Commission be questioned when the data shows a clear pattern?" has been posted on "X". In said X post and Indian Express report, it is mentioned that 29.77 % of voters in 38 Muslim heavy seats were marked uncollectable and not carried forward. It is also questioned that if the process is purely technical and neutral, why is the exclusion rate systematically higher in minority-concentrated constituencies?

In this regard, factual position is as follows:-

At the outset, it is mentioned that there is no Assembly-wise published data on religious composition and the source of religious based data is not disclosed in the report published in Indian Express. Further, the report seems to be based on Census 2011 without any further statistical projections.

The 38 minority concentrated constituencies as claimed in Indian Express report are counted upward from 7.68% of Enumeration Forms uncollectable electors. The fact is that there are 279 ACs in Maharashtra having more than 7.68% electors with uncollectable EF. These 279 ACs practically cover entire state as there are only 288 ACs in Maharashtra.

Some of the ACs with high uncollectable percentage other than 38 ACs mentioned in Indian Express news are as follows:

Name of AC	No. of uncollectable electors (Not included in Draft ER)	Name of AC	No. of uncollectable electors (Not included in Draft ER)	Name of AC	No. of uncollectable electors (Not included in Draft ER)
187-Colaba	46.92%	213-Hadapsar	45.80%	138-Kalyan West	42.64%
211-Khadakwasala	46.53%	209-Shivajinagar	44.25%	142-Kalyan-East	41.47%
132-Nalasopara	46.35%	140-Ambernath(SC)	44.17%	143-Dombivali	41.47%
210-Kothrud	46.17%	146-Ovla-Majiwada	44.15%	188-Panvel	41.42%
144-Kalyan Rural	46.05%	150-Airoli	44.00%	145-Mira Bhyander	41.37%

In said report of Indian Express, average percentage of exclusion rates of 38 minority concentrated ACs is calculated on the base of sum of percentage of individual AC, which is not a correct method for statistical analysis.

Also, exclusion rate of SC and ST reserved seats have been taken for comparison with minority concentrated ACs as claimed in Indian Express report. In this regard, it is mentioned that most of SC and ST seats are from rural Maharashtra and uncollectable EF percentage from these ACs cannot be compared with that of ACs in urban area of Maharashtra.

The Draft Electoral Roll for all assembly constituencies in Maharashtra is published on 31st August 2026, after house-to-house enumeration process in SIR 2026. Out of 9.78 Cr. electors, 7.72 Cr electors submitted their duly signed enumeration forms and hence their names were included in Draft Electoral Roll. However, the names of 2.06 Cr. electors could not be included in Draft Electoral Roll as EF from these electors were uncollectable as these electors were either absent/shifted/dead/already enrolled or due to other reasons. These electors in uncollectable category cannot be termed as deleted because this is only Draft Electoral Roll and electors in sub-category "Shifted or Absent or others" have a fair chance to file Form 6 for their inclusion in Electoral Roll during ongoing claims and objection period (31.8.2026 to 30.9.2026), from their current native place.

Assembly-wise detailed statement regarding percentage of electors with uncollectable EF is enclosed herewith. From the statement, it can be clearly seen that such trend of high uncollectable electors appears in Urban Assembly constituencies in Maharashtra State due to constant migration/shifting of electors from one place to another and it is not based on any religious or community population. Therefore, report in Indian Express and statement in X post in this regard is baseless and not based on factual information.

SIR-2026- Uncollectable EF electors as on 31-08-2026
